

**Data Sheet**

Mining and sale of limestone materials for industry, agriculture, concrete...

**Origine :**

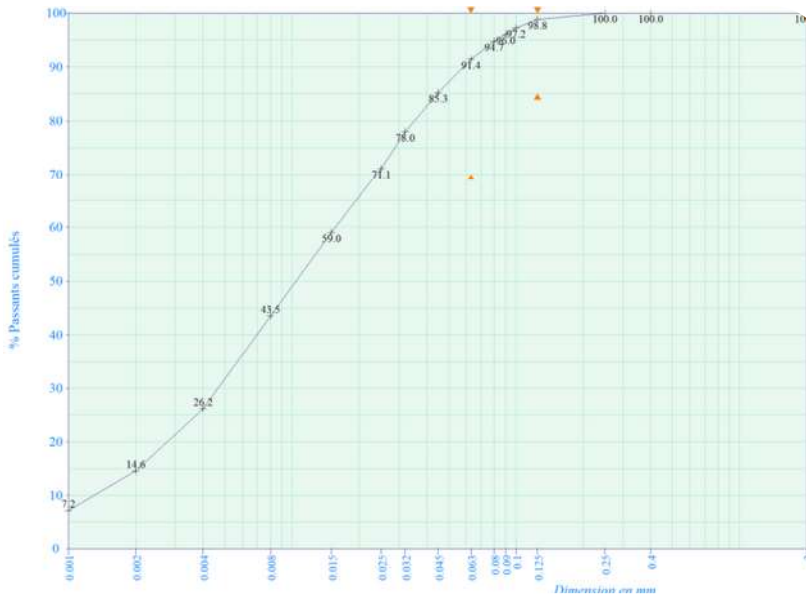

Our calcium carbonates come from an extremely pure deposit in the north of France (Ferques, 62) renowned for their chemical qualities and the high regularity of the grains.

# CALC10

Limestone filler

**CONCRETE AND MORTARS**

carbone footprint  
13.37kg CO<sub>2</sub> /  
produced tonne
